KAITUNA

ULTRA-LOW EMISSION (ULEB) WOOD FIRE RANGE

Discover the new Kaituna wood fire, the latest addition in the Masport Heating range that is a future proof solution for all regions in New Zealand - clean air zones and rural installations. Taking it's name from the Kaituna River in the Bay of Plenty, steeped in history the Kaituna wood fire lends traditional wood firebox designs with elevated new technology.

KAITUNA

ULTRA-LOW EMISSION (ULEB) WOOD FIRE RANGE

The Kaituna wood fires focus on a cleaner environment, longer burn time and safety the Kaituna has the latest Masport Ultra M3 technology which offers high performance, clean burning and lower maintenance costs. With a 6mm steel firebox and radiant cook top, the Kaituna is suited to small to medium sized homes and available in 4 base options: Pedestal, Ash Pan, Woodstacker and Legs.

- ▶ Ultra-clean burning that is better for air quality
- ▶ Available in four base options
- ▶ Built with the Masport Ultra M3 technology
- ▶ Ceramic Fire Bricks for greater heat retention and durability
- ▶ Stainless Steel Boxed Baffle for superior performance and longevity
- ▶ Lower long-term running costs due to quality components
- ▶ Start-Up Latch mechanism for ease of operation and safety
- ▶ Does not require electricity
- ▶ Rural installation on 2 hectares or larger
- ▶ A future proof solution for all NZ regions - clean air zones and rural installations

* Refer to the specifications sheet for full product details and compliance testing.

**Space Heat Output is only a guide based on homes with average insulation, window area, and 2.4m ceiling heights. Differences in these factors, as well as others like, geographical location, layout of the house, living room size, type of windows all play a part in choosing the right model for your heating needs. Consult your dealer or installation contractor for more information.

*** For Rural installation, ensure that the rural-specific packs is ordered at the time of purchase.
